

Table 3
Top Ten Families of Vegetable Crops Grown In Home Gardens

Scientific Family Name and Common Name	Genus and Species Name	Scientific Family Name and Common Name	Genus and Species Name
Amaryllidaceae		Solanaceae	
chives	<i>Allium schoenoprasum</i>	eggplant	<i>Solanum melongena</i>
garlic	<i>Allium sativum</i>	pepper, bell or chili	<i>Capsicum annuum</i>
leek	<i>Allium ampeloprasum</i>	potato, white	<i>Solanum tuberosum</i>
onion	<i>Allium cepa</i>	tomato	<i>Lycopersicon esculentum</i>
Chenopodiaceae		Compositae	
beet	<i>Beta vulgaris</i>	endive	<i>Cichorium endiva</i>
chard	<i>Beta vulgaris</i> var. <i>cicla</i>	globe artichoke	<i>Cynara scolymus</i>
spinach	<i>Spinacia oleracea</i>	lettuce	<i>Lactuca sativa</i>
Cruciferae		Gramineae (Poaceae)	
broccoli	<i>Brassica oleracea</i>	corn	<i>Zea mays</i>
brussels sprouts	<i>Brassica oleracea</i>		
cabbage	<i>Brassica oleracea</i>	Lillaceae	
cauliflower	<i>Brassica oleracea</i>	asparagus	<i>Asparagus officinalis</i>
Chinese cabbage	<i>Brassica oleracea</i>		
kale	<i>Brassica oleracea</i>	Leguminosae	
kohlrabi	<i>Brassica oleracea</i>	dry bean	<i>Phaseolus vulgaris</i>
mustard greens	<i>Brassica oleracea</i>	fava bean	<i>Vicia faba</i>
radish	<i>Raphanus sativus</i>	lima bean	<i>Phaseolus limensis</i>
rutabaga	<i>Brassica napus</i>	snap bean	<i>Phaseolus vulgaris</i>
tumip	<i>Brassica rapa</i>	pea	<i>Pisum sativum</i>
Cucurbitaceae		Umbelliferae	
chayote	<i>Sechium edule</i>	carrot	<i>Daucus carota</i>
cucumber (slicing and pickling)	<i>Cucumis sativus</i>	celery	<i>Apium graviolens</i> var. <i>dulce</i>
muskmelon (cantaloupe, honeydew)	<i>Cucumis melo</i>	celedac	<i>Apium graviolens</i> var. <i>rapaceum</i>
pumpkin	<i>Cucurbita pepo</i>	Florence fennel	<i>Foeniculum vulgare</i>
squash, summer	<i>Cucurbita pepo</i>	parsley	<i>Petroselinum crispum</i>
squash, winter	<i>Cucurbita pepo</i> (acorn)	parsnip	<i>Pastinaca sativa</i>
squash, winter	<i>Cucurbita maxima</i> (butternut)		
watermelon	<i>Citrullus lanatus</i>
